There are usually two USB modes used for connecting to MP3 players to computers:.. Mass Storage Class (MSC) Mass media Transfer Process (MTP) Windows systems support both MSC and MTP setting.

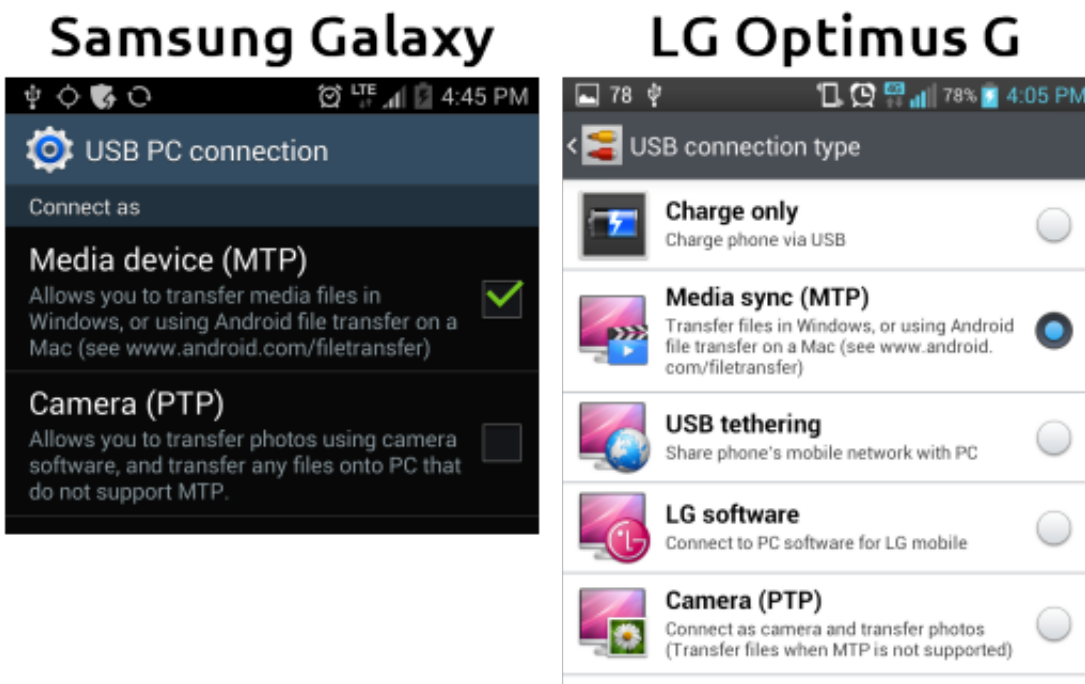

1. [support](#)
2. [support synonym](#)
3. [support apple](#)

Mac systems only support MSC mode MTP mode is definitely the favored method for connecting to Windows systems because it supports more features for transferring content material to players.
